Disclaimer **SMALP**

The use of this styrene maleic acid copolymer (SMA) product for the manufacture of styrene maleic acid copolymer - lipid particles (SMALP), and the use of SMALP, are covered by one or more of the following patents owned by Malvern Cosmeceutics Limited: US 8623414, EP 1890675, GB 2426703, AU 2006253886, JP 5142898, IN 261468, CN ZL200680018957.2 and CA 2,611,144 and by the University of Birmingham: US 8754168.

The purchaser is licensed under those patents to use the SMA for the manufacture of SMALP and to use the SMALP for the purpose of research and development of proteins, including their production (including purification and solubilisation), screening testing, analysis, characterisation (including structural analysis and characterisation), including for the purpose of drug screening and for the purpose of in vitro diagnostics, but not for the purpose of delivery of agents to humans or other animals for therapeutic, diagnostic (including in vivo diagnostics) or prophylactic purposes, which uses are specifically prohibited.

The use of SMALP 502-E within the United States is not covered by our current license and this product can therefore not be made available for US purchasers.
